

Swipe your way to freedom

Introducing the fastest and easiest way to securely complete that transaction no matter where you are. The new ROAMpay Swipe offers your customers the ease of effortless purchasing and lets you take advantage of the lowest card present rates. The ROAMpay Swipe is fully encrypted from end-to-end. Your credit card information is encrypted at the swipe, ensuring safety and security on every transaction.

ROAMpay™

mCommerce for today's merchants

ROAMpay is the perfect mCommerce solution for merchants looking to move their business into the future. With robust options such as keying in a transaction on your flip phone, to using the ROAMpay swiper on the latest smartphone, or adding multiple lines to one account, ROAMpay is becoming the standard for businesses that need a serious mCommerce solution.

- Quickly process credit card orders on your phone by swiping or keying in
- Email receipts to customers at point of purchase
- Check reports in your customer portal

ROAM DATA™
COMMERCE ON MOBILE, MADE EASY

Add a line, or two or three...

Mobilize your entire workforce

Maximize your sales and add as many sub-lines as your business requires. Add-a-Line is a tailored solution for any business with a medium to large sized mobile workforce. Ensure that you and your employees will be ready to accept credit cards no matter where or when. Just log in to your myROAM account to start adding today!

Convenient sales tracking and reporting

The enhanced myROAM portal gives you access to all activity on your sub-lines. Discover how much your workforce is selling and generate exportable transaction reports to keep track of your business progress.
